

LuxSci's High Volume Outbound Email is designed to support your business class electronic marketing.

LuxSci's **High Volume Outbound Email** offers authenticated and anonymous SMTP on high performance servers configured for bulk email sending. Coupled with a strict anti-spam Acceptable Use Policy, our shared and dedicated High Volume servers do not share the all-too-common gray listing that large cloud-based bulk email providers face. Reporting tools and our expert Technical Support team ensure high deliverability and performance.

ISP or current email host restricting your outbound email sending?

Our easy-to-configure SMTP service offers a cost effective way to use your bulk email program. **Need reports?** We offer bounce analysis and activity auditing. **Sending ePHI?** No problem. **HIPAA compliant** bulk email is an option. **Smarthost** from your Exchange server when your e-marketing must be HIPAA compliant. LuxSci's **outbound email filters** are a popular supplement to Exchange email servers.

High Volume Outbound Email is an ideal solution for mass e-mailing

- **Product news**
- **Schedule announcements**
- **Customer newsletters**
- **Order confirmations**
- **Web-based applications with subscriber notifications**

Basic High Volume

A cost effective way to outsource your email marketing with our SMTP servers. Basic High Volume combines your email sending program with our authenticated SMTP servers.

Monthly emails:	15,000	30,000	50,000	100,000	150,000	200,000
Monthly price:	\$10	\$30	\$60	\$120	\$180	\$240

Premium High Volume

Designed for more sophisticated outbound email requirements. HIPAA compliant. Premium High Volume lets you supplement LuxSci's Email and Web Hosting services with bulk email.

Price varies depending on base account type and added services. Bulk email component is twice the Basic High Volume rate.

Pay As You Go High Volume

A great way to allocate your e-marketing budget without the time constraints of our monthly shared service. Pay As You Go is ideal for periodic mass mailings. It's also an ideal way to test our service using real-life sending limits.

Price is \$75 per block of 50,000 recipients; blocks valid for 1 year from purchase. Buy many blocks, send up to 200,000/month.

Dedicated High Volume

Your own Dedicated IP address and hardware, configured for your sending requirements. Ideal for enterprise and large business e-marketing. Dedicated High Volume Servers are appropriate for monthly sending that exceeds 200,000 messages. Two-month minimum commitment, no setup fees!

Monthly email limit:	500,000	1 million	2 million	10 million	20 million
Monthly price:	\$250	\$400	\$750	\$1,200	\$2,000
